Description:	call from iw re; fake medical and payment for disability		

Mr. Oakes called and wanted to discuss the fake medical documents on file and they have gone to the Tribunal and that's against the law.

He wanted to be paid for his disability and based on fact not the fake medical documents on file.

He kept trying to get an answer from me and I could see from the file that the issue of fake medical documents has been addressed by the director in a letter on file dated November 27, 2017 from Mr. DoCouto.

This issue was addressed by Mrs. Dechamps in a letter dated October 11, 2011 (Mr. DoCouto attached that letter to his letter).

I was not going to listen further to an issue that has been reviewed multiple times and voiced this to the worker.

He got upset and started to swear and called me a name prior to him hanging up on me.

Phone call forwarded to management.
